## Candy Corns

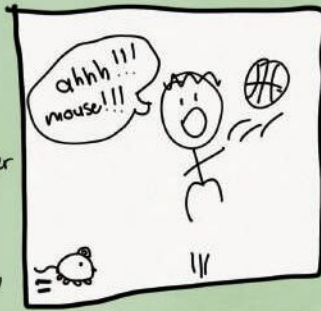

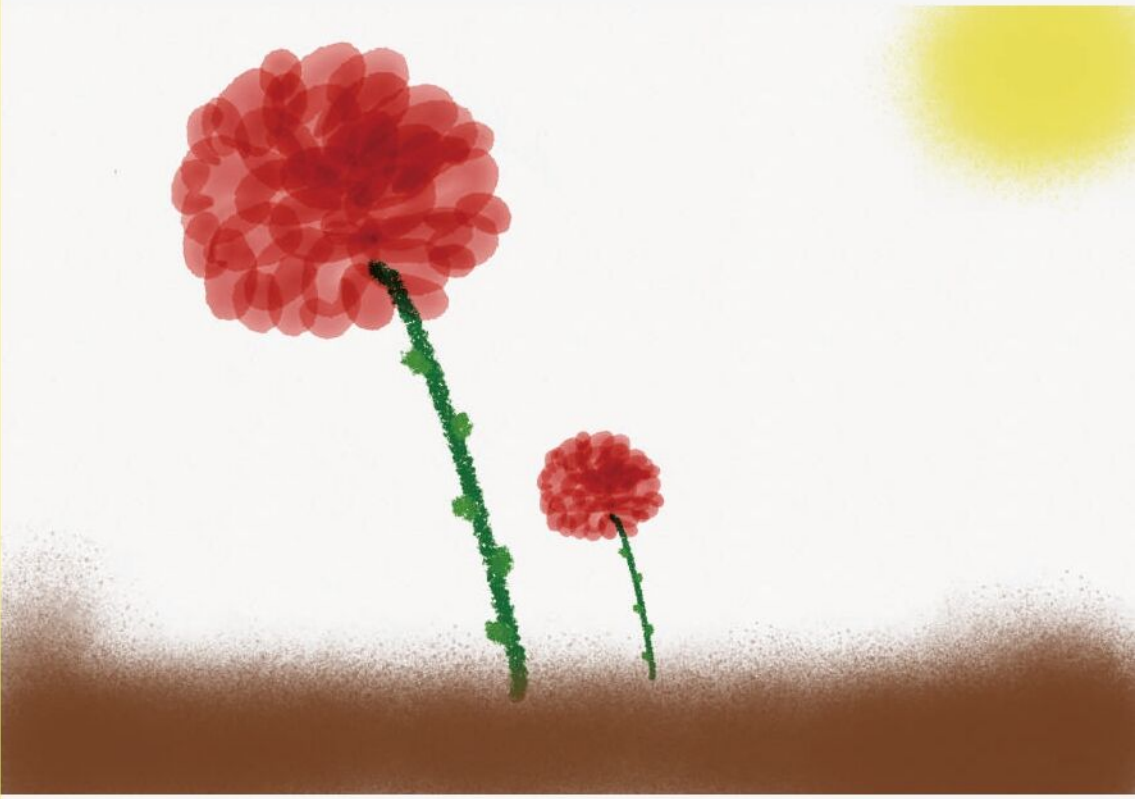

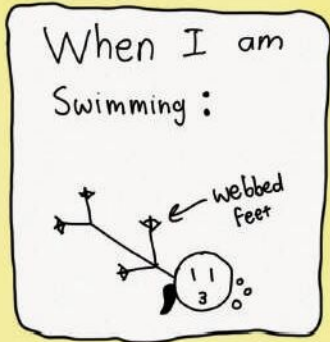

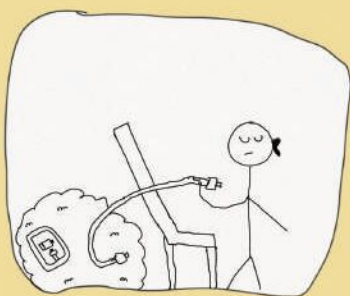

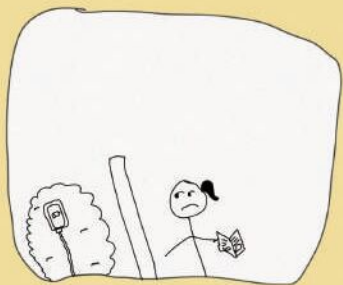

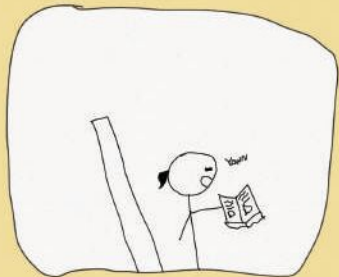

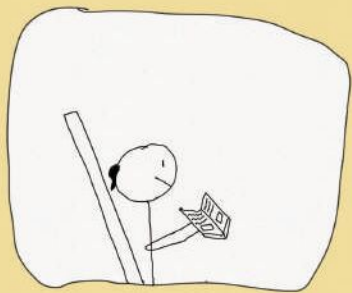

my  
brother

Ava is a 9-year-old girl living in Hong Kong. We have shared countless remarkable memories, whether they are ecstasy or unhappiness.

She is a creative and unique-minded person with borderless imagination and she translated all of these integral parts of our lives onto paper to create comics and drawings.

She has an unique vehemence for squishy objects, which I really don't understand why.

*Every moment of my life is special,  
and I always have a pen to write them down.*
